

ECO Hanger RAIN RFID Label

Stora Enso, Intelligent Packaging

Sustainable RAIN RFID label optimised for retail and apparel

Stora Enso's ECO Hanger UCODE 8 is designed with retailers' needs in mind. It is the sustainable choice for organisations that care about their ecological footprint. ECO Hanger's size is compatible with apparel hang tags and stickers. With a fibre-based substrate, ECO Hanger enables a flexible and simplified tag structure, allowing high-quality tags that support the brand image. By selecting ECO Hanger retailers make an environmentally friendly choice without the need to worry about recyclability.

Key features of ECO Hanger

High performance for retail applications

ECO Hanger is suitable especially for item-level retail, logistics and supply chain applications. It complies with Auburn Radio Compliance (ARC) tests A, B, C, D, F, G, K, I, M, N, and Q defined by the RFID Research Center at the University of Auburn. ECO Hanger offers high read reliability, orientation insensitivity, and excellent performance even when stacked in close proximity, as well as a competitive cost level.

Reliable choice

ECO Hanger passes industry standard tests for temperature and humidity (IEC 60068-2-67), temperature cycling (JESD22-A104-B) as well as tag bending tests. These comprehensive tests ensure ECO Hanger performs at all stages of the products life cycle and can safely be used to track items from source to the point of sale.

Global tag for global operations

ECO Hanger is a choice for retailers and brand owners globally, as it is compliant with current frequency regulations. Converting of ECO Hanger into hangtags or stickers is easy, the delivery format is a 2-layer paper tag without the extra polyester layer present in all traditional etched inlays.

About Stora Enso

Our aim is to replace non-renewable materials by innovating and developing new products and services based on renewable materials. And by transforming the world, we are transforming ourselves too; growing our expertise to meet the needs of our customers and overcome many of today's raw material challenges. As the leading global provider of renewable solutions in packaging, biomaterials, wooden constructions and paper, we employ around 26,000 people in 35 countries. Intelligent Packaging by Stora Enso is a leading global provider of products and services that enable our customers' digital transformation using the internet of things (IoT). We provide them with the means to connect physical items, gain efficiency, quality and visibility and exceed their customers' expectations.
